SUTTER'S GOLD.
Plant Pat. No. 885

An All-America Winner, 1950

Numerous long-pointed buds shaded orange and red. In very hot sun flowers may open quickly and lose some of their brilliancy, which is the only slight fault we find with this Rose. In ordinary weather you will find its growth, foliage and color most spectacular. Its fragrance is the sweetest of any yellow Rose we know.

Not Illustrated

BLANCHE MALLERIN. Plant Pat. No. 594.

A pure white, fragrant Hybrid Tea Rose. The petals of the beautifully molded blooms are as white as alabaster, with a live satiny sheen as appealing as an Easter Lily. With the advantage that the Rose blooms for five months of the year. The streamlined buds come erect on healthy, upright plants and open to beautifully formed blooms 3½ to 4 inches across. Lovely for cutting.

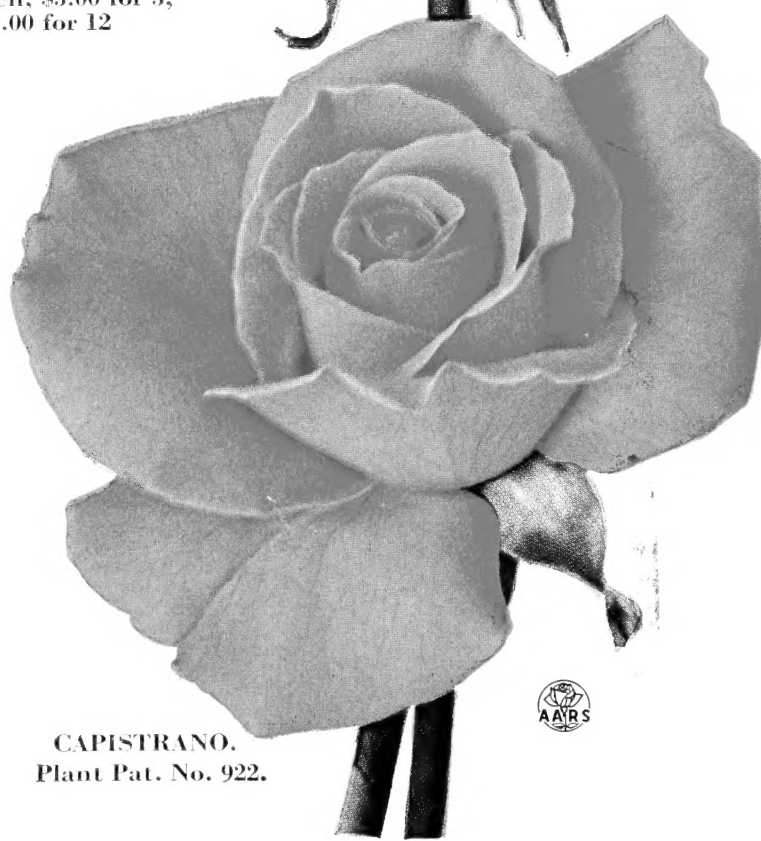

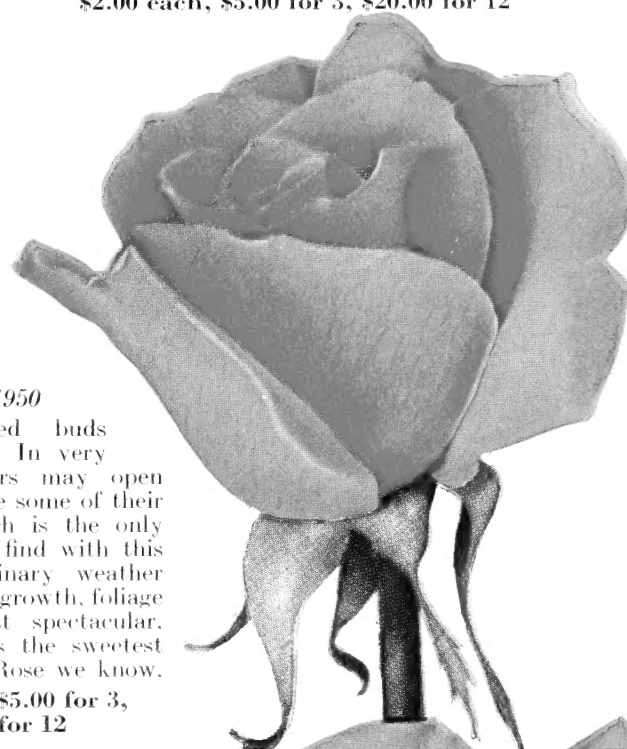

\$1.50 each, \$3.75 for 3, \$15.00 for 12

CAPISTRANO. Plant Pat. No. 922

1950 A. A. R. S. Winner

A strong, upright-growing plant carrying its most beautiful glowing rose-pink, richly perfumed flowers on strong stems, making it ideal for cutting and exhibition purposes. One of the finest additions to any garden.

DOBBINS DUSTER

Our recommendation for easy, trouble-free dusting. Roses should be dusted before and after every rain. During dry spells, less frequent dusting is necessary. The dust should be applied mostly to the underside of the leaves, which is a simple matter with this duster. A light, barely noticeable covering is sufficient. Dust when the foliage is dry for best results.

Read and Relax

In this Little Rose Book we have listed and illustrated the varieties which, judging by the demand, seem to be the Rose-lovers' favorites. It would be impractical to grow every variety we are asked for; therefore, we have limited ourselves to what we consider to be the better ones.

No doubt, in the fall or spring you are at times confused when you see Rose bushes offered at bargain prices. That is the time to consider the old rule, "You get what you pay for."

We wish you could spend three years with us, and see how much labor and operating expense is involved in producing a top-quality Rose bush. The job takes three years, even though the bushes are sold as two-year plants. Some localities do produce a plant in two years by setting the wild Rose cutting in the ground in the spring, budding it in the summer, and digging it in the fall of the following year as a finished product.

We grow the wild Rose for one year, dig it in the fall, trim the roots during the winter, and grow it for two more years. This gives a much more fibrous root system, so necessary for good results. All our Roses are grown on a heavy clay soil. This is far more difficult to work but gives the plants much more vitality, which is of great importance for good results after digging, grading, storing and shipping.

All compliments we have received speak to that effect. For example, an outstanding rosarian writes:

"Your Roses received last Fall were planted the same day they arrived. In my twenty years of buying Roses from all sources, these were the finest ever received. Of the 52 plants I have lost none. They are in full bloom and being admired by the hundreds of people who visit my Rose garden, consisting of some 800 Rose plants.

"I heard of you before and also saw you rated in one of the leading periodicals as one of the few excellent sources of supply. I know I will not hesitate to recommend you to others."

Yes, once in a while a complaint that a Rose died for unknown reasons has us as puzzled as a doctor who suddenly loses one of his apparently healthy patients. But if a bush does not flower the first growing season after planting, and you tell us about it, we will ask no questions and will send you a replacement.

It sometimes happens that a person has no chance to plant the Roses immediately and forgets about them for a while. In the meantime, they may dry out and will then refuse to grow. Others do not cut them back short enough or do not hill them up after planting, and the sun or wind gets the best of them.

It also happens that a person may become unduly alarmed when one Rose starts to grow more quickly than another. He thinks the slower one is dead, even though the branches are still green, and tells us about it. Occasionally a letter soon follows, saying the plant grew beautifully after all and enclosing the money for the replacement we had already sent.

So we ask you to have patience with us. We cannot control or restore life, but we will give you another plant for any that should fail to grow and bloom, provided they are planted properly and cared for adequately. You alone know whether or not this was done.

BUY WITH CONFIDENCE FROM A RELIABLE GROWER. WE GROW OUR OWN.

A Word to Our Friends

A Short History of What Is Now

GERARD K. KLYN, Inc.

IT IS NOW 29 YEARS since the writer planted the first 25,000 Roses here in Mentor, along the shores of Lake Erie. This location was chosen because of its ideal climatic conditions for the growing of fine Roses. Mother Nature provided this locality with cool fall weather and early frosts, which is so necessary for the early ripening of the plants and gives them the vitality to carry them over winter successfully.

Cornelius Klyn, father of Gerard, started his nursery in Holland in 1892. Two of his sons are still continuing that business there now and ship a good part of their products to the United States every year.

In 1916 I came to America to sell Father's products. Then America entered the first World War, and I could not get back until spring, 1919. I went back but had been in America too long; the homeland appealed to me no more. In 1921 the first Roses were planted in Mentor. With very little money it was not easy, and much perseverance was needed. Sixteen-hour days were frequent. I had nine years without a single day's vacation, and had not Mrs. Klyn stood so courageously by my side, the task would have been much more difficult.

Starting with five acres and 25,000 Roses we have now 360 acres under farm and nursery cultivation. Over 600,000 Roses were planted this spring, along with many acres of evergreens and other nursery stock. Instead of one horse, there are now ten tractors. Shipments are made to all 48 states, outlying possessions and foreign countries. It was a heavy task, but I did enjoy it.

And now the nursery rows seem so much longer to walk; the spade has become too heavy. So Gerard, Jr., now twenty-eight and known as "Jerry," is gradually taking over where the "old man," as they call him now, will eventually leave off. Then there is Jack, now seventeen and still going to school, who probably will join us a few years later.

It was most gratifying to see Gerard K. Klyn mentioned in one of the leading magazines as one of the very few excellent sources of supply for Roses. I also owe a debt of gratitude to the many faithful employees who helped to gain the organization its enviable reputation. May it always be so.

And last but not least, thanks to our thousands of friends and customers who favored us with their confidence throughout the years.

Gratefully yours,

Gerard K. Klyn, Sr.

GIFT CERTIFICATE

A gift that lasts for years . . . one that will be remembered and enjoyed. Suitable for birthdays, anniversaries, Christmas or house gifts.

Our certificates can be made out for any items of your choice that we list, or for any amount you wish, selection to be made by recipient.

Certificates will be sent at any time, Roses at proper planting time.

IMPORTANT!

Place your orders early—**AT ONCE**, if possible. Orders are filled in the rotation in which they are received, and if our supply of some varieties is low, the early orders always get the preference.

What  means:

ALL-AMERICA ROSE SELECTIONS

The All-America Award is the highest distinction bestowed in this country on the very best new Roses. Plants are sent to eighteen official test gardens and six demonstration gardens located in different parts of the country so that all major types of climate, soil, and other growing conditions are represented. For two years, expert, impartial judges carefully check the development and growth of all Roses, scoring each one on separate and distinct qualities. The highest scores are then submitted to the National Rose Jury, which selects the winners. Gardeners can buy these new Rose varieties with confidence, knowing they are getting the very best.

SPECIAL DISCOUNT—*Please Read Carefully*

6 to 11 plants, 5% off the each price
12 to 24 plants, 10% off the each price
25 or more plants, 15% off the each price

NO DISCOUNT ON TREE ROSES • NO FURTHER DISCOUNT ON COLLECTIONS
NO FURTHER DISCOUNT ON THE 3 OR 12 PRICE OF ONE VARIETY

Instead of listing in this catalog a great many inflexible "collections" or "groups," we have decided to let you make your own collections and still receive the benefit of a discount.

The total number of plants in your order determines the discount to which you are entitled. However, should your order include one or more of the collections we do offer, or one or more varieties of which three or more plants are ordered, the discount cannot be deducted from the price of these since it has already been allowed.

Example: An order calling for one Collection 12, three Peace, one Mission Bells, and one Capistrano is entitled to the 10% discount, but the 10% can be figured only on the each price of Mission Bells and Capistrano, since the price of the Collection and the three rate have already received the discount.

Another Example: An order of six Roses, one each of six varieties, your choice, receives the 5% discount. Here the total amount of the entire order is eligible for discount since each plant is priced at the each rate.

MUL-TEX

Labor Saver • Water Saver • Beautifier

We cannot praise the advantages of Mul-Tex enough. By eliminating hoeing, weeding and watering almost entirely, its value as a time and labor saver is obvious. Weeds will not grow in Mul-Tex, nor can they get a start to go through it. After covering the ground with Mul-Tex, the need for watering is over. Except in the hottest, driest weather over a prolonged period, Mul-Tex holds the moisture right up to ground level. The soil is cooler, and aëration is no problem since air passes easily through Mul-Tex.

The rich, dark brown color of Mul-Tex provides an ideal color background for any plant or flower. It is composed entirely of buckwheat hulls and can be worked into the ground in late fall to improve the soil structure, or it can be saved for another year's use. It is better, however, to use fresh Mul-Tex each year.

Mul-Tex is very easy to apply. The soil should be worked, weeded and raked as smooth as possible. Fertilization should be done at this time, before raking, to save time. Mul-Tex should be applied 1 to 2 inches thick. Then you can sit back and enjoy the largest, most perfect blooms and the healthiest plants you have ever had.

ETOILE DE HOLLANDE

CONDESA DE SASTAGO

GOLDEN SASTAGO

AMI QUINARD. Deep maroon. One of the darkest red Roses. Very free blooming.
★BETTY UPRICHARD. A charming combination of carmine and salmon. Buds long pointed, opening to larger, semi-double flowers. The blooms are distinctly bi-colored—the outside of the petals deep carmine, the inside silvery salmon. Very fragrant.
★CONDESA DE SASTAGO. Delightfully fragrant bicolor. The flowers are a combination of coppery pink inside and golden yellow outside.
★CRIMSON KING. Fragrant, deep brilliant crimson flowers that repeat into the fall.
EDITH KRAUSE. A lovely full-flowered white Rose. Beautiful for exhibition purposes.
★EDITOR McFARLAND. Deep pink. Large, perfect, fragrant flowers on long stems. Excellent for cutting. This plant is unusually vigorous.
★ETOILE DE HOLLANDE. Ever popular, with its delightful crimson color, fine form, long cutting stems and vigorous growth. One of the best, richly fragrant everblooming.
GOLDEN DAWN. Buds sunflower-yellow touched with carmine, opening to fragrant, golden yellow blooms. Robust grower with a super-abundance of foliage and bloom.
★GOLDEN SASTAGO. Of same habit as Condesa de Sastago, but it is pure yellow.
★JOANNA HILL. Shapely flowers of orange-yellow. This variety is easily grown and maintains disease-resistant foliage.
K. A. VIKTORIA. Long-pointed buds open to delightfully scented, creamy white flowers. Very double. Plants of medium height.
McGREDY'S IVORY. Large, double flowers, moderately fragrant. Soft creamy white merging into yellow at the base. Vigorous, disease resistant, and a prolific bloomer.

McGREDY'S SCARLET. Very brilliant blooms with a velvety sheen. A vigorous grower bearing large flowers on long stems.

★**MME. JOSEPH PERRAUD.** Apricot-buff. Strong stems, fine for cutting. A consistent prize-winner in amateur shows.

★**MME. JULES BOUCHE.** A bushy, vigorous grower producing many long-pointed, mildly fragrant flowers on stiff stems. The most continuous-blooming white Rose.

MRS. E. P. THOM. The buds are long and pointed and open to well-formed blooms of clear, deep canary-yellow. The unfading, fragrant flowers are large and fully double.

MRS. P. S. du PONT. A deep rich golden yellow. Buds long and pointed; flowers medium size; delightful fragrance. Low grower; stoutly built; prolific bloomer.

PINK DAWN. Lovely salmon-rose-pink flowers with a glow of bronze and gold at the base of the petals. Sweetly fragrant.

★**POINSETTIA.** Brilliant flowers of clear, unfading scarlet-red, produced on strong stems. Vigorous, healthy plants.

★**PRES. HERBERT HOOVER.** Large, delightfully fragrant, multi-colored blooms of scarlet, yellow, cerise and flame, borne on erect, firm stems. One of the most popular.

RADIANCE. The old dependable. Two-tone pink flowers on a strong plant. When your other Roses are gone, Radiance will still be there.

RED RADIANCE. Cupped flowers with a true Rose fragrance; the color is an even shade of cerise-red. This variety is long lived, free blooming and dependable.

★**SISTER THERESE.** Long-pointed, silvery yellow buds marked carmine-red, opening to fragrant blooms of clear yellow.

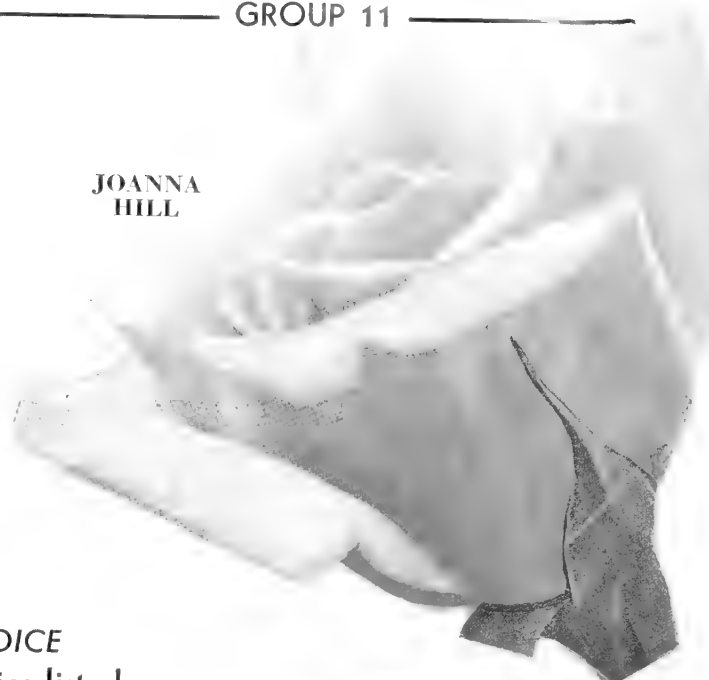

TALISMAN. Beautiful, two-tone red and yellow. Most outstanding in cool weather.

Roses will do better if planted 8 feet away from shrubbery, and at least 20 feet away from large trees. They will not have to compete for nutrients in the soil.

Floribunda Roses

growing in popularity every year because of their abundance of bloom throughout the summer.

SUMMER SNOW. Plant Pat. No. 416. (Not illustrated.)

A most prolific bloomer. Clear white flowers cover the plant. New ones form as soon as the old ones fade, providing a continuous display for mass plantings or border use. Also ideal where a low hedge is desired.

RED PINOCCHIO. Plant Pat. No. 812.

RED PINOCCHIO. Plant Pat. No. 812

This Rose has the same growing habit and all the fine qualities of Pinocchio, except for its striking rich color, as illustrated.

\$1.50 each, \$3.75 for 3, \$15.00 for 12

PINOCCHIO. Plant Pat. No. 484.

PINOCCHIO.

Plant Pat. No. 484

Extremely hardy, very easy to grow, always in bloom, with hundreds of flowers on every bush. Great clusters of exquisitely pointed buds open gradually to long-lasting, diminutive Hybrid-Tea-like blooms 1½ inches across. The buds are rich salmon, flushed with gold at the base, gradually changing to clear pink as the flower opens. Pinocchio is very effective when planted in shrub and evergreen borders and gives a riot of color all summer after the flowering shrubs are done. Excellent for massing along paths or borders. One of the best all-purpose Roses.

\$1.25 each, \$3.15 for 3, \$12.50 for 12

If any of your friends are gardeners, try a Rose plant as a unique gift for an anniversary or birthday. Any garden enthusiast will be pleased with one of the All-America winners as an unusual and lasting gift.

Not Illustrated

DONALD PRIOR. Plant Pat. No. 377

Immense clusters of semi-double, brilliant red flowers. Sturdy plants, seldom without a bloom. Petals are large and wavy. Particularly useful for mass effects in beds and borders. The plants grow strong and are disease resistant.

\$1.25 each, \$3.15 for 3, \$12.50 for 12

CHATTER. Plant Pat. No. 739

Enormous clusters of bright crimson flowers that last almost indefinitely. The dainty buds open slowly until each cluster is fairly bursting with brilliant crimson color. No other Rose can equal Chatter for bright color and long lasting qualities. Use it for mass plantings, hedges, or borders. Plant grows about 2½ feet high. Foliage is disease resistant.

\$1.25 each, \$3.15 for 3, \$12.50 for 12

Prepare Rose beds in advance. Allot a specific space for each plant. Make sure the hole is large enough to allow the roots to spread naturally. Crown or bud union should be level with the ground. Hill the soil up about 8 inches after planting, to protect the plants from drying winds. This soil should be removed when growth is under way.

© FLORADORA

FLORADORA.

One of the gayest of the Floribundas. Spectacular, for it is constantly in bloom and an entirely new shade in Roses—a brilliant cinnamon-red. The delicately formed flowers are carried in sprays of six to twelve, each opening slowly into a fully double bloom resembling a camellia. Height about 3 feet.

\$1.25 each, \$3.15 for 3, \$12.50 for 12

WORLD'S FAIR. Plant Pat. No. 362

Clusters of velvety, 4-inch, rich scarlet flowers which almost hide the luxuriant foliage. Blooms from late spring until frost. Height about 2½ feet.

\$1.25 each, \$3.15 for 3, \$12.50 for 12

IMPROVED LAFAYETTE.

Medium-sized, deep glowing red flowers, suffused with vivid crimson. Blooms profusely. One of the finest Roses for bedding, flowering without fail until hard frost.

\$1.25 each, \$3.15 for 3, \$12.50 for 12

BETTY PRIOR. Plant Pat. No. 340

Unusually tall, and all through the summer it is perpetually forming buds and flowers. The buds are a lovely red, opening to shell-pink flowers resembling dogwood. This is an ideal Rose where a tall mass or specimen bush is desired.

FASHION. Plant Pat. No. 789

The latest sensation in Roseland, and an All-America winner.

An entirely new color—luminous coral-pink overlaid with gold, deepening to a reddish tone at the finishing stage. A rich display of golden yellow stamens gives it a most attractive center. The abundant flowers throughout the season have an enchanting Old-Rose fragrance. Bushy growth 2½ feet tall, with rich dark green foliage. Yes, a real "sensation."

**\$2.00 each, \$5.00 for 3,
\$20.00 for 12**

GOLDILOCKS. Plant Pat. No. 672

The grandest yellow Floribunda Rose in existence. Dense, bushy growth up to about 2½ feet, with lovely foliage. Continuously covered with rich golden yellow flowers. A beauty in any garden.
